Supply chain information:

Supply chain information included in Rapid Response reports is based on the latest public versions of mill disclosures, recent export data, and company grievance logs. Mighty Earth encourages companies to send updated versions of mill disclosures as soon as they become available and to share any decision to suspend relations with a given group/company listed in those mill disclosures with rapidresponse@mightyearth.org.

Mighty Earth is now including biofuel companies and other manufacturers in the supply chain tables of Rapid Response reports, as these companies have both direct and indirect trading relationships with groups highlighted in these reports and should be filing grievances on these cases. These companies are listed in the “Supply Chain Information” tables.
New Case

**Group: Jhonlin**
PT Jhonlin Agro Lestari
Concession location: -3.247384, 115.930973

### Deforestation and/or peat development
